Hi Rick,

I checked with Faith Christian School's (FCS) consultant and they said they were working on a cost proposal to submit to FCS with the work plan. I'm not sure what this cost proposal has to do with submittal of the work plan to me. Perhaps the work plan would be changed if FCS had a problem with the costs. Anyway, they indicated the work plan would be submitted in the next month or so. I'll let you know when I get the plan.

Mark

Hey Mark,  
anything from the contractor yet?  
thanks  
Rick

Hi Rick,

Doing well, thanks. Hope things are going well for you. Faith Christian School has not submitted the VI Assessment Work Plan. They have indicated that they would, but I have not received it yet. I'll send you a copy when I get it.

Regards,  
Mark

Hey Mark,  
how are you? I understand that TCEQ has now certified the FCS MSD. Did ENTACT submit a VI assessment work plan or conduct an assessment? I would be interested in having a look at what they proposed or results from their investigation.  
thanks  
Rick

Hey Mark,  
I think TCEQ should be the lead on the VI work plan review and approval as we discussed before, but we would like to look at it and would be happy to provide you feedback if it would be helpful.  
thanks  
Rick

Rick,

Some additional information. To reiterate, I haven't received the work plan for the indoor air evaluation at the Faith Christian School (FCS) at this time. According to ENTAC, FCS wants to finish the Municipal Setting Designation (MSD) process to get their MSD before submitting the work plan. As I indicated, I can send you a copy when I get the work plan. Can you clarify whether the EPA or TCEQ will be the lead on review and approval of the work plan to evaluate the indoor air pathway at the FCS site? The TCEQ will proceed once clarification on this matter is received.

Regards,  
Mark
